

464.1006 CON3

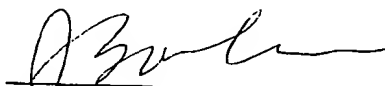

Ar Cor't  
properties of the second electrode and the properties of the second electrode are those affecting the local distribution of the electric field at said interface; and  
detecting the formation of the target-biomolecule complex.

---

**REMARKS**

This Preliminary Amendment is being submitted in order to introduce new claims. Examination on the merits is respectfully requested. The fee for presentation of additional claims is believed to be \$ 112.00 (small entity). The Commissioner is hereby authorized to charge that amount and any deficiency associated with this submission to our Deposit Account No. 50-1570.

Respectfully submitted,

Julie Bowker
